CELSIUS HOLDINGS

SAFE HARBOR & NON-GAAP MEASURES

FORWARD-LOOKING STATEMENTS

This investor presentation contains statements by Celsius Holdings, Inc. (“Celsius”, “we”, “us”, “our” or the “Company”) that are not historical facts and are considered forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements may address, among other things, our prospects, plans, business strategy and expected financial and operational results. You can identify these statements by the use of words such as “anticipate,” “believe,” “could,” “estimate,” “expect,” “intend,” “may,” “should,” “will,” “would”, ”could”, ”project”, ”plan”, “potential”, ”designed”, “seek”, “target”, variations of these terms, the negatives of such terms and similar expressions. These statements are based on certain assumptions that we have made in light of our experience in the industry as well as our perceptions of historical trends, current conditions, expected future developments and other factors we believe are appropriate in these circumstances. These forward-looking statements are based on our current expectations and beliefs concerning future developments and their potential effect on us. You should not rely on forward-looking statements because our actual results may differ materially from those indicated by forward-looking statements as a result of a number of important factors. These factors include, but are not limited to: changes to our commercial agreements with PepsiCo, Inc.; management’s plans and objectives for international expansion and global operations; general economic and business conditions; our business strategy for expanding our presence in our industry; our expectations of revenue; operating costs and profitability; our expectations regarding our strategy and investments; our ability to successfully integrate business that we may acquire; our ability to achieve the benefits that we expect to realize as a result of our acquisitions; the potential negative impact on our financial condition and results of operations if we fail to achieve the benefits that we expect to realize as a result of our business acquisitions; liabilities of the businesses that we acquire that are not known to us; our expectations regarding our business, including market opportunity, consumer demand and our competitive advantage; anticipated trends in our financial condition and results of operation; the impact of competition and technology change; existing and future regulations affecting our business; the Company’s ability to comply with the rules and regulations of the Securities and Exchange Commission (the “SEC”); and those other risks and uncertainties discussed in the reports we have filed with the SEC, such as our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K. Forward-looking statements speak only as of the date the statements were made. We do not undertake any obligation to update forward-looking information, except to the extent required by applicable law.

USE OF NON-GAAP MEASURES

Celsius defines Adjusted EBITDA as net income before net interest income, income tax expense (benefit), and depreciation and amortization expense, further adjusted by excluding stock-based compensation expense, foreign exchange gains or losses, distributor termination fees and legal settlement costs. Adjusted EBITDA Margin is the ratio between the Company’s Adjusted EBITDA and net revenue, expressed as a percentage. Adjusted diluted earnings per share is GAAP diluted earnings per share net of add backs and deductions for distributor termination, legal settlement costs, reorganization costs, acquisitions costs, and penalties. Adjusted EBITDA, Adjusted EBITDA Margin, and Adjusted diluted earnings per share are non-GAAP financial measures.

Celsius uses Adjusted EBITDA, Adjusted EBITDA Margin, and Adjusted diluted earnings per share for operational and financial decision-making and believes these measures are useful in evaluating its performance because they eliminate certain items that management does not consider indicators of Celsius’ operating performance. Adjusted EBITDA, Adjusted EBITDA Margin, and Adjusted diluted earnings per share may also be used by many of Celsius’ investors, securities analysts, and other interested parties in evaluating its operational and financial performance across reporting periods. Celsius believes that the presentation of Adjusted EBITDA, Adjusted EBITDA Margin, and Adjusted diluted earnings per share, provides useful information to investors by allowing an understanding of measures that it uses internally for operational decision-making, budgeting and assessing operating performance.

Adjusted EBITDA, Adjusted EBITDA Margin, and Adjusted diluted earnings per share are not recognized terms under GAAP and should not be considered as a substitute for net income or any other financial measure presented in accordance with GAAP. Non-GAAP financial measures have limitations as analytical tools and should not be considered in isolation or as substitutes for analysis of Celsius’ results as reported under GAAP. Celsius strongly encourages investors to review its financial statements and publicly filed reports in their entirety and not to rely on any single financial measure.

Because non-GAAP financial measures are not standardized, Adjusted EBITDA, Adjusted EBITDA Margin, and Adjusted diluted earnings per share as defined by Celsius, may not be comparable to similarly titled measures reported by other companies. It therefore may not be possible to compare Celsius’ use of these non-GAAP financial measures with those used by other companies.

NO OFFER OR SOLICITATION

This presentation shall not constitute or form part of an offer to sell or the solicitation of an offer to buy any securities of the Company, nor shall there be any sale of any securities of the Company in any state or jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such state or jurisdiction.

INDUSTRY AND MARKET DATA

Unless otherwise indicated, information contained in this presentation concerning our industry, competitive position and the markets in which we operate is based on information from independent industry and research organizations, other third-party sources and management estimates. Management estimates are derived from publicly available information released by third-party sources, as well as data from our internal research, and are based on assumptions made by us upon reviewing such data, and our experience in, and knowledge of, such industry and markets, which we believe to be reasonable, but we have not independently verified the accuracy of this information. Any industry forecasts are based on data (including third-party data), models and experience of various professionals and are based on various assumptions, all of which are subject to change without notice. In addition, projections, assumptions and estimates of the future performance of the industry in which we operate and our future performance are necessarily subject to uncertainty and risk due to a variety of factors, including those described in “Forward-Looking Statements.” These and other factors could cause results to differ materially from those expressed in the estimates made by the independent parties and by us.
